

Inactive Physicians Returning to Practice

- ◆ Physicians who have been inactive in their field of practice for 24 to 36 months must obtain one month of retraining for every twelve months out of practice.
- ◆ Physicians who are inactive in their field of practice for a period of greater than three years must undergo an assessment of their skills and knowledge to the satisfaction of Council. After the assessment the period of retraining, and specific areas of retraining, will be determined. The cost of the assessment will be the responsibility of the applicant.
- ◆ Physicians who have been inactive due to illness or disability will be evaluated on an individual basis, as to the need for a formal assessment, irrespective of the length of time they have been absent from practice.
